

Chris Bishop

BSc, MA

My employment experience has been with primary school aged children rather than the elderly, having been headteacher of the local primary school for 18 years before my retirement in 2005. I am however, one of those geeks who is happy to sit in front of a computer and, for a while after leaving the school, I set up and managed a number of school websites. I have lived in Debenham since 1988 and have 2 children and 2 grandchildren
