	Carers contact the project, either by referral from Memory Clinic or self referral, which is the more common. Either dealt with by the Project or referred to GP or statutory agencies					
Highlights:	Hopefully being able to support families at a time of crisis and subsequently. The positive feed back from them following the intervention and support of the Project.					
Problems or Concerns:	Lack of support for people outside the project as statutory agencies are overwhelmed and underfunded to a dangerous degree.					
Participant Feedback:	Carers have expressed their thanks for guidance and support.
